

“BEE” Alert and “BEE” Safe
Accident Prevention in your Living Room

Keep this in your kitchen and review the checklist from time to time.

- Is your floor clear of anything that might cause you to trip?
- Are your throw rugs secure to the floor?
- Is there any wiring on the floor in your pathway?
- Is the room well lit?
- Is your furniture arranged to provide an open pathway between rooms?
- Is your telephone within reach of the floor?
- Are your emergency phone numbers close by?
- Have you considered buying a cordless phone?
- Do you have a night lite in your living room?

Remember! Stay healthy and be careful!
